ESTABLISHMENT
of HOVEY & CO., Horticulturists,

7 MERCHANTS ROW, BOSTON, MASS.

NURSERIES AT CAMBRIDGE, TWO MILES FROM THE CITY.

CATALOGUE OF
GARDEN SEEDS,

AND A LIST OF THE BEST KINDS OF

AGRICULTURAL SEEDS,

GARDEN IMPLEMENTS, BOOKS ON HORTICULTURE, &c., &c.

— ALSO —

AN EXTENSIVE COLLECTION OF

FLOWER SEEDS,

EMBRACING MANY NEW AND RARE VARIETIES AND ESTABLISHED FAVORITES, AND
INCLUDING SPLENDID ASSORTMENTS OF DOUBLE GERMAN ASTERS,
BALSAMS, STOCKS, HOLLYHOCKS, ROCKET LARKSPURS, &c.

1854.

PRESS OF J. L. HALLWORTH, NO. 37 WASHINGTON STREET, BOSTON.

REMARKS.

IN the present edition of our Catalogue of *Seeds* many new varieties will be noticed in both the lists of Vegetables and Flowers; those in the former are recommended as being generally of a superior quality; and a decided improvement on the older kinds, while those of the latter embrace a large number which are new and rare.

In order to keep pace with the demand for novelties, every new species and variety worthy a place in the flower garden, seeds of which could be obtained, has been added to the Catalogue, and it now embraces a greater number of choice flower seeds than any of our previous editions.

We would particularly recommend to amateurs and others, the assortments from No. 618 to No. 643; they comprise many of the most beautiful and favorite annuals, especially the German Asters, Double Balsams, German Stocks, &c. These seeds, and many others, have been, as usual, saved by ourselves, and are of the finest description.

The Catalogue of Flower Seeds being descriptive, will be found of much value in making selections. The duration, height, color, and season of flowering are given in the different columns, and will assist those who are unacquainted with the various kinds, in making a collection that will embrace the greatest variety of habit, diversity of color, and succession of flowers.

From our Nurseries at Cambridge, only two miles from Boston, we can supply the best varieties of fruit and ornamental trees, flowering shrubs, roses, grape vines, and a great variety of the most desirable plants for the green-house and flower garden. The collection of Fruit trees is very extensive, and large additions of the newest and best varieties have been made. Also many new varieties of Strawberries, Raspberries, Currants, Grapes, &c., &c.

The collection of Plants embraces the finest Roses, Camellias, Geraniums, Carnations, and many new and choice plants, recently imported.

The Nurseries are situated in Cambridge, on the road to Mount Auburn, and omnibus coaches pass every hour during the day.

Catalogues of Fruit Trees, Ornamental Trees, Roses, Green-house and Hardy Plants, Dahlias, and Bulbous Flower Roots, may be had gratis on application; but it is expected that applicants will enclose stamps for the postage.

 **All orders should be directed to**
"Messrs. HOVEY & CO., Boston."

CATALOGUE.

RETAIL PRICED LIST

OF

GARDEN VEGETABLE SEEDS.

Those to which the price is affixed per ounce, are also sold in packets at the price of five cents each;—when less than one ounce of any variety is ordered, they will be sent in packets at that rate. All kinds can also be had in larger quantities, by the pound, bushel, &c., at the lowest market prices.

DESCRIPTIVE LIST

OF

FLOWER SEEDS.

EXPLANATIONS

First and second columns.—The number and the scientific or common name of the plants, agreeably to the remarks at the head of each alphabetic list.

Third column.—Hardiness and duration of each plant, viz :—ha., *hardy annual* ; hha., *half hardy annual* ; ta., *tender annual* ; hb., *hardy biennial* ; hbb., *half hardy biennial* ; hp., *hardy perennial* ; hhp., *half hardy perennial* ; Ga., *green-house annual* ; Gp., *green-house perennial* ; S., *shrub*.

Fourth column.—Color of the flower ;—b., *blue* ; car., *carmine* ; cr., *crimson* ; div., *diverse* ; d., *dark* ; l., *light* ; or., *orange* ; pur., *purple* ; r., *red* ; sc., *scarlet* ; vio., *violet* ; va., *variegated* ; w., *white* ; yel., *yellow*, &c.

Fifth column.—Usual height, in feet, the plants generally attain under good cultivation.

Sixth column.—Usual months of flowering.

Seventh column.—Price per packet ; (no smaller packets of the kind can be made.)

(†) added to the letters in the third column denotes that such biennial and perennial plants usually flower the first year, if sown early.

(*) dwarf plants, proper for the edgings of beds or borders.

(**) ornamental climbers, suitable for an arbor or trellis work.

(..) indicate a repetition.

TIME OF SOWING.—Hardy Annuals, April to June, and some of the kinds in the autumn. Half hardy Annuals, in May ; or if earlier, in a *green-house* or *cold frame*. Tender Annuals, in a *hot-bed*, to be transplanted into the open ground about the first of June ; or they may be sown in the open ground the middle or last of May. Biennials may be sown at any time during April, May or June.

For a list of choice assortments, comprising only the *finest* varieties, see page 20.

The following plants, being best known by their common or English names, they are thus arranged in alphabetical order, and the scientific name given in the second column. A collection may be ordered, by merely giving the numbers, and the date of the Catalogue.

No.	Common Name.	Scientific Name.	Dura- tion.	Color.	Height ft.	Months of flowering.	Price.

THE following seeds, with very few exceptions, have no popular or English name, and, in consequence, the scientific names are arranged in alphabetical order. The names in the second column, by which they are often called, are mostly literal translations of the specific name: Example,—*Clarkia elegans*, "elegant" *Clarkia*, &c. A dash, —, indicates a variety; parentheses, (), that the word is not literally translated, or is superadded.

Twenty packets Flower Seeds, purchasers' selection, from those priced 6 cents \$1 00

A choice assortment of 24 packets, our selection 1 00

" " of 50 " " 2 00

☞ The rate of postage to any part of the United States, under 2,000 miles, is six cents per ounce, prepaid, packages of flower seeds, can therefore usually be sent by mail with greater despatch and less expense, than by any other mode of conveyance. The weight of twenty single packets is about two ounces, and most of the above named assortments will not exceed a half ounce each.
